“The exodus would ever be more trial than trail.”
“Come, calm or strife, turmoil or peace, life or death,
in the name of Israel’s God we mean to conquer or die trying.”

SARAH ANN, ELIZA, ABIGAIL, SUZANNE
Pioneer Sesquicentennial Project - akrc March 1997

SARAH ANN, ELIZA, ABIGAIL, SUZANNE,
What did you leave when you left your home land?
When you followed a husband, who followed his God?
Would you have come, if you had known the path your feet would trod?

Suzanne back in France so long ago, across waters, wide and deep,
That long trip to New York, And a language you couldn’t speak.
Babies you left buried in England, damp and cold.
Others you brought in that small boat, Across the ocean, where none of you had ever been.
Did your husband know how to find the new land?

Abigail, must you leave again? Born in New York,
You’d left your homeland, when the missionaries you heard in Canada.
It wasn’t so far you had to go, compared to how far you’d already been,
Just across the lake to Kirtland. Did you make it to Nauvoo?
Would your children all follow with their families, too?

Women of courage, with faith in every step,
When I hear their stories, such a pattern they set,
In them, I see my way more clearly, I may get there, yet.
SARAH ANN, ELIZA, ABIGAIL, SUZANNE,
Who did you leave when you left your home land?
When you followed a husband, who followed his God?,
Would you have come, if you had known the path your feet would trod?

Eliza, you didn’t believe like your husband Sam, That God had provided a promise land.
So why did you come o’er the ocean and then, Pull that handcart thru’ icy rivers and snow?
Even after he died and was left on the trail; why did you stay and embrace his beliefs
After all that? It’s amazing to me.

Sarah Ann, pampered and spoiled as a child, You of all people, I would have expected to stay
In Philadelphia, where your charmed life, Had to do with ponies, and satin and no strife.
Hiding, because of your “delicate condition”, You listened to the truth,
And traded it all, For nail keg and goods boxes, loaded in wagons.

These stories have hardships and trials and death
But when told by those who the journey trod,
They were led and protected by the Hand of GOD.
SARAH ANN, ELIZA, ABIGAIL, SUZANNE,
How did you feel when you left your home land?
When you followed a husband, who followed his God?
Would you have come if you had known the path your feet would trod?
Yes! You would come if you had known, the path your feet would trod!

In honor of my pioneer grandmothers: Suzanne de la Tour Lamoreaux was a Huguenot who left France 1685 so that her children could be raised in religious freedom. Abigail Losey Lamoreaux was exiled to Canada when her family fought for the British in the Revolutionary War and then moved to Kirtland after Parley P. Pratt converted her and her husband in Canada in 1836. Eliza Chapman Gadd left England in the 1840's after her husband and older children joined the church. They pushed a handcart in the Willie Company. Her husband and two children died on the trail. She was baptized one month after reaching the Salt Lake valley. Sarah Ann Pedrick Asay was raised well to do, was disowned for joining the church in the pioneer trek in the 1850's. She had to hide to hear the mission.

William Rowley was born at Cradley in Herefordshire in 1785 son of Thomas Rowley and Elizabeth Williams. A general search for Palmer entries (1) in the baptism register. His parents were not married at Cradley, but in 1859 son of John Palmer married (secondly) Elizabeth Williams and no remarriages, it looks highly likely that a clerk’s error is involved, and that ___ children share a single mother. Thomas Rowley married Ann Palmer by banns at Cradley in 1746; the surname Rowley is not found earlier at Cradley, but William senior is listed as heir. Work done, names and dates recorded by John Rowley, 1877. William & Ann Rowley were sealed in St George Temple - John is listed as heir. Ann Jewell is still living so she had to have done this sealing??? If it was her

Research notes from Shirley:

*William Rowley was born at Cradley in Herefordshire in 1785 son of William and Ann or Mary Rowley, according to family information. He married Ann Taylor there in 1746; the surname Rowley is not found earlier at Cradley, but William senior is listed as heir. Work done, names and dates recorded by John Rowley, 1877. William & Ann Rowley were sealed in St George Temple - John is listed as heir. A general search for Palmer entries (1-2) confirmed that William was married there, but not recorded in the baptism register. His parents were not married at Cradley, but William senior is baptised there in 1754 son of Thomas and Elizabeth Rowley. Since there are no burials of wives of Thomas Rowley in this period, and no remarriages, it looks highly likely that a clerk’s error is involved, and that ___ children share a single mother.

Thomas Rowley married Ann Palmer by banns at Cradley in 1746; the surname Rowley is not found earlier at Cradley, except in a single doubtful entry, re-inked in the 19th century:

Burial 30 Mar 1671 Briggitta Rolfe

Anne or Elizabeth Palmer ___ doubtless the Elizabeth daughter of John and Elizabeth Palmer baptised at Cradley in 1726. A general search for Palmer entries (1-2) shows that John Palmer married (secondly) Elizabeth Williams in 1720. His first wife, Elizabeth Davis, whom he married in 1714, died in 1714. John was not baptised at Cradley.

As for Elizabeth Williams a general search (4-6) shows three possibilities, baptised in 1699 and 1703: further detailed work including a check of probate ___ should make clear which girl married John Palmer."

"William and Ann Taylor Rowley ... had sufficient means to employ a governess for their younger children. The governess was a younger, single woman named Ann Jewell. She was born in 1807, the same year that William and Ann Taylor were married.

"In 1835, twenty-eight years after her marriage to William Rowley, Ann Taylor Rowley passed away. William was about 50 years old when she died. We do not know the makeup of the family at the time. The youngest of the Rowley children, Hannah, would have been 9 or 10 years old. Some of the older children certainly were married and would have been living on their own. We also do not know how long Ann Jewell had been living in the Rowley home.

"VICAR NOT CURATE" what does that mean? Did it cost more? Was it unusual? Why was it added to the record?
[Who owned Mars Hill? We have tithe records from 1850s paid by William listing him as "owner" and "occupier". See "Tithe Award" of Suckley filmed by Janice.

[Who lived there before the Rowleys? How long were they there? Are there other land and rent records?]

[Did Eliza Chapman Gadd & Ann Jewell Rowley ever learn to read and write? What a disadvantage if they did not. Their children did. Maybe they learned with or from them. William Rowley probably died without ever learning. It wasn’t unusual at the time.]

**Note from Diane Rowley:** William & Ann Jewell’s marriage record was on this film, also, and the witnesses were William Jenkins and Eliza (sp?) Jenkins. Eliza’s name had a spot over part of it so it was hard to decipher what it really said, but William & Ann Taylor had a daughter named Eliza--could that have been her married name?

Note from Diane Rowley: There are no records for any of Ann Jewell’s children being born in Suckley so maybe they were non-conformist by 1836.

Suckley parish records (0435,364) - from notes by Diane Rowley, 2008

Ann Rowley said: "I married William Rowley 22 Aug 1836. I was 29 years old at the time, as I was born in 1807. William was a widower with 7 children. I was considered an old maid. I was uneducated, but an excellent seamstress. I sewed for my wealthy sister, making her gowns and draperies. William was 50 years old, but I loved him, this great man and his children. I thought I had made a good catch, he was fairly well-to-do. He had a beautiful home in a place called "Mars Hill," in the parish of Suckley, Worcestershire, England. We made our living by selling "Hops and Fruits." We were members of a religious body called the "United Brethren." There was more than 600 of us who had broken off with the "Wesleyan Faith." We were continually praying for light and truth."

Wilford Woodruff & the "600 United Brethren"

1840 Mar 1-5  Hereford, Eng  Wilford Woodruff inspired "...to go south: for the Lord had a great work for me to perform there, as many souls were waiting for His word."

"In the morning I went in secret before the Lord, and asked Him what was His will concerning me. The answer I received was that I should go to the south; for the Lord had a great work for me to perform there, as many souls were waiting for His word. On the 3rd of March, 1840, in fulfillment of the direction given me, I took coach and rode to Wolverhampton, twenty-six miles, spending the night there. On the morning of the 4th I again took coach, and rode through Dudley, Stourbridge, Stourport, and Worcester, then walked a number of miles to Mr. John Benbow's Hill Farm, Castle Froome, Ledbury, Herefordshire. This was a farming country in the south of England, a region where no elder of the Latter-day Saints had visited"  
[Cowley, Wilford Woodruff, p. 116].

"...there was a company of men and women - over 600 in number - who had broken off from the Wesleyan Methodists, and taken the name of United Brethren. They had forty-five preachers among them, and for religious services had chapels and many houses that were licensed according to the laws of the land. This body of United Brethren were searching for light and truth... and were calling upon the Lord continually to open the way before them and send them light and knowledge, that they might know the true way to be saved".  
[Cowley, Wilford Woodruff, p. 116?].

[William and Ann Rowley were part of this group.]  
"Among the United Brethren-these seekers of truth who received the servants of God with joyful hearts-were William and Ann Jewell Rowley. The morning light of truth that broke forth across the rolling hills of England fell gently upon the uplifted eyes of these two noble spirits and dispelled forever the darkness of ignorance and error.

"The Rowley family gratefully acknowledges the diligent efforts of Apostle Wilford Woodruff and his fellow missionaries who brought to these good people and to generations of their unborn posterity the priceless opportunity to seek salvation in the kingdom of God. Apostle Woodruff’s accurate and detailed records during his missionary labors in England shed precious light upon Rowley family history.

"From family tradition, we know that Wilford Woodruff visited the Rowley home at Mars Hill and preached the gospel to the family. They received him and his message gladly, inviting him to make his home with them while he preached in the neighborhood. This he did on several occasions.

Rowley Family Histories

"He [John Benbow] had in his mansion a large hall which was licensed for preaching, and he sent through the neighborhood that an American missionary would preach at his house that evening."

Wilford Woodruff’s Journal as quoted in Rowley Family Histories

On the morning of the 4th I again took coach, and rode through Dudley, Stourbridge, Stourport, and Worcester, then walked a number of miles to Mr. John Benbow's Hill Farm, Castle Froome, Ledbury, Herefordshire. This was a farming country in the south of England, a region where no elder of the Latter-day Saints had visited"

[Cowley, Wilford Woodruff, p. 116].

"Froome, Castle (St Michael), a parish, in the union of Ledbury, hundred of Radlow, [There is a river Froome in Herefordshire.] Froome Castle county of Hereford, 7 miles (N.N.W.) from Ledbury: continuing 183 inhabitants.

"This parish, which is watered by the river Froome, comprises 1474 acres; the surface is varied with hills and dales: the soil is a rich loam, alternated with clay, resting on a limestone gravel in the arable lands, and the meadow and pasture lands are rich and luxuriant. The road from Ledbury to Bromyard intersects the parish from south to north. There are extensive quarries of limestone and of freestone of good quality for building. The living is a rectory, valued in the kings books at "Pounds"5. 13. 4., and in the gift of the Rev. W. J. Lyell: the tithes have been commuted for (pounds)270, and the glebe contains 55 ½ acres."

Samuel Lewis, A Topographical Dictionary of England
### Event & Source

**Ann Rowley** said: "We were members of a religious body called the "United Brethren." There was more than 600 of us who had broken off with the "Wesleyan Faith." We were continually praying for light and truth.

"Before our first child was born, we were privileged to hear a man named Wilford Woodruff proclaim a new gospel message. We really went to hear this man because we were curious and because we had heard that the Church of England had sent a constable to arrest him, but this man had converted him instead. Then the church sent two spies who were commissioned to sit in on the meetings and report back. They too were converted, so the church dared not send anyone else. We all wanted to hear this astonishing man.

"We had only to hear him once and *William and I* knew with all our hearts that he was offering us a priceless treasure. We accepted his offer and were baptized into the "Church of Jesus Christ of Latter-day Saints." All but one of the 600 members of the United Brethren were converted and baptized at the time.

"Although a great many joined the church, there were many who opposed. Our lovely and spacious home was always open to the missionaries and we delighted in holding meetings there. One night there was a specially important spiritual meeting planned, because Apostle Wilford Woodruff was going to conduct it. The Saints had all been invited and they came, but what promised to be a beautiful meeting became a nightmare, for an angry mob gathered around our home. They were noisy and troublesome. *William* started for the door to quiet them down and I begged him not to go, but he said, "Why Ann, they are people I have known all my life, they are my neighbors and I'm sure they'll listen to reason." He opened the door and was immediately seized and beaten up severely. Only then did the mob disperse. *William* was grateful the Apostle Woodruff was not harmed."

"When I arose to speak at Brother Benbow’s house, a man entered the door and informed me that he was a constable, and had been sent by the rector of the parish with a warrant to arrest me. I asked him, "For what crime?" He said, "For preaching to the people." I told him that I, as well as the rector, had a license for preaching the gospel to the people, and that if he would take a chair I would wait upon him after meeting. He took my chair and sat beside me. For an hour and a quarter I preached the first principles of the everlasting gospel. The power of God rested upon me, the spirit filled the house, and the people were convinced. At the close of the meeting I opened the door for baptism, and seven offered themselves. Among the number were four preachers and the constable. The latter arose and said, "Mr. Woodruff, I would like to be baptized." I told him I would like to baptize him. I went down into the pool and baptized the seven. ..."

Ann Rowley: "With such bitter opposition our financial affairs didn't go well and when our fruit crop failed two consecutive years, we were in real financial difficulty. Many people with money were no longer our friends and finally the day came when our house, furniture and all our possessions were sold at auction. Even our feather beds were confiscated, all except mine and William's. William suffered deeply from his humiliation. We were left to earn our living by day work, which in itself is not disgraceful but the circumstances were hard for us to endure.

"We dreamed of going to Zion, where we could be with the main body of the Saints, but money was the problem here too. The Lord sent another son, whom we named Samuel, and it is through him that you people are here. Samuel was blessed by "Apostle Woodruff."

"At this time Elder Wilford Woodruff was in England preaching the Gospel. He was impressed to call upon the United Brethren and when he delivered his message to them, they received him joyfully and in a short time they were all converted and baptized. Wilford Woodruff and the Rowley family became close friends and many of the church meetings were held in the Rowley home. A few months after the Rowley family joined the church, on the 14th of July, they were blessed with a fine baby boy whom they named John. He had two sisters and of course he being the first boy they all rejoiced greatly over him."

THE MARS HILL BRANCH

"We are not entirely certain which branch of the Church William and Ann Jewell belonged to. Some family histories suggest that they may have been members of the Old Storridge Branch, a congregation that had existed among the United Brethren prior to March 1840, when all of its members were baptized into the restored Church (Bloxham, et al, p. 138).

"In April 1845, a general conference was held at Manchester. In attendance were members of the Mars Hill Branch (Millennial Star, vol. 5, p. 167). According to family tradition, members met often in the Rowley home at Mars Hill while William and Ann Jewell resided there.

"Under English law, homes and halls had to be licensed for use as religious meeting places. The mention of Mars Hill Branch suggests that the Rowleys may have licensed their home and that, for a time, it was the formal meeting place for one of the branches of the Church. The conference to which they belonged, comparable to a mission district in our day, was also called the Mars Hill Conference. An Elder E. F. Sheets was called to preside over the Mars Hill Conference (Millennial Star, vol. 5, p. 173).

"If William and Ann Jewell Rowley were not in attendance at the Manchester conference, they were almost certainly present on September 21 of the same year when the Mars Hill Conference met "in the parish of Suckley, Worcestershire" (Millennial Star, vol. 6, p. 155). The Mars Hill Conference consisted of 11 branches with 466 members. Among the priesthood holders in attendance on September 21 was "1 deacon," perhaps William Rowley by name.

"The Church continued to grow in the vicinity of Mars Hill. By January 1846, the conference reported 659 members (Millennial Star, vol. 7, p. 3). Some of the growth was due to reorganization - adding a branch that had previously belonged to another conference - but at least 33 persons had been baptized since the previous September."

ADVERSITY AND DEATH OF WILLIAM

Ann Rowley: "I was left a widow with 7 children under 12 years of age and the step children of William's first marriage. I was very grateful for the gospel of Jesus Christ and the comfort it gave me. I knew that our parting was only temporary and that viewed from the eternities, this was but a fleeting moment. I also knew that no matter how fleeting a moment it was, I had to make the best of it. I had a very real job to do. The children had to be fed and clothed, but the big task and the one I must accomplish, is to get us all to Zion. I must be among the people of my faith as I have always been among the people of my faith and I must get the Temple work done for us. Each person that could earn money at all, was required to work.

"The next seven years were hard. This was the period of time when England was exploiting "Child Labor," just prior to their industrial revolution. Many big industries would hire them for next to nothing. Samuel was only 7 and John 9, but they worked in a brick yard tromping mud, to be used for bricks. I would help the little fellows across a narrow dangerous bridge, to go to work at daylight and at night I would meet them and help them home. The girls, even 11 year old Elizabeth, worked late in the night making kid gloves, doing mock flocking and other needlework. We did this in our home. Then at the end of the week, I would take them to market, where they were sold to the gentry. Our savings were meager.

"My desire became more urgent, for war broke out between England and Russia. John was now of military age and I knew we must leave at once, if he was to go with us.

Autobiography Ann Jewell Rowley

"William Rowley died in Feb 1849, at age 64." Ann "widowed at age 42. The ages of her 7 children ranged from 7 months to 12 years."
The Rowley family was now in poor circumstances. Ann Rowley worked early and late making mens clothing and with the aid of her brother Thomas Jewell- she was able to provide for her family. She was unable however to send them to school, but she was very faithful in teaching them the Gospel by example as well as by precept. The family was treated very unkind by the non-Mormons. At one time a group of boys caught John and beat him until he was unconscious simply because he would not deny being a Mormon. His condition remained serious for several days.

"As soon as John was old enough to work he began doing so by carrying bricks through a dark tunnel. He later found a better job and in less than a year the family was ready to come with a group of saints to Zion.

Nellie R. Mecham, “HISTORY OF JOHN ROWLEY”
Nellie is a daughter of John, granddaughter of William

"At the time of his joining the Church of Jesus Christ of Latter-day Saints, William made a comfortable living by raising hops. After his baptism he was subjected to such persecution because of his religious beliefs that he lost his wealth, He had dreamed of coming to Utah, but his health failed under the pressure of extreme harassment and he died without having realized his dream. His sons, left fatherless, walked great distances to work at a brick yard in order to earn money to buy passage on the Thornton bound for the United States. His wife, possessed of supreme courage, brought their seven children and two of his children by a former marriage by ship, rail, and handcart to Utah. [I think Eliza was only one child of the first family that came. akc]*

Also sailing on the Thornton was the family of Samuel and Eliza Chapman Gadd, parents of Mary Ann who was to become the wife of John Rowley. They were from the town of Orwell, Cambridgeshire, England. They too had embraced this new religion and were on their way to Zion. The ship docked at New York City and the group traveled by train to Iowa City to join the saints. Here they built handcarts and organized their belongings in preparation for their long trek across the great plains to Utah. This large group crossed Iowa, leaving Iowa City on July 15, 1856, one day after John’s fifteenth birthday, to join the handcart company of Captain James G Willey at Council Bluffs.

Perpetual Emigration Fund - "The first to gather were those with sufficient means to pay their own way. Thousands of poor possesses the zeal but lacked the means. The church proposed a joint-stock company, The British & American Commercial Joint Stock Co. didn't work. Next, Church leaders petitioned Queen Victoria to assist needy LDS to emigrate to Vancouver Islands. Polite response, no help. Gold Rush of 1849 created profitable new trade. Perpetual Emigration Fund set up in Sept 1849. A revolving fund used to purchase oxen, inexpensive wagons, and bare essentials to transport immigrants from the railroad terminus at Iowa City to great Salt Lake City. Oxen sold in Utah & money to be paid back as able. First to aid Saints leaving Nauvoo. 1852 emphasis shifted to Europe Saints. Tens of thousands of members emigrated. Between 1852 & 1887, 1/3 of all Saints who came from Europe were aided in some way by the Perpetual Emigration Fund."

NOTE: Find records of this auction! It must have been advertised. What year was it? Maybe 1847? They are listed at Mars Hill in 1841 census - William died in 1849 - When did they leave Mars Hill. ]
This is a Saturday. I spent the weekend on the ship... allowed to go into NYC to attend Church services if they wished, & were visited by John Taylor.

Ann Rowley: "The sea voyage took 6 weeks and several deaths occurred and once the ship was in a calm and the Saints fasted and prayed and the Lord showed forth his power in our behalf. He also came to our deliverance in a terrible storm, when the ship caught fire and we called on Him for our preservation. Food was at a premium. One week was so stormy, the ship was driven back 500 miles. Six weeks was a long time to live aboard ship, in cramped quarters. However, our Captain didn’t ill treat us, but he was a very cruel man and we were many times pained by witnessing his abuse to his crew. In a way, this experience strengthened us for our more severe trials ahead.

"The ship entered the New York Harbor 14 June 1856, landing at Castle Gardens, we sailed again, up the Hudson River, to a terminal of the Rock Island Railroad, where we took the train to Iowa City."

Autobiography Ann Jewell Rowley
"The saints arrived in New York on June 14, 1856 and were received by Elder John Taylor. They left New York on the 17th of June and traveled by rail to Iowa City arriving there on the 26th of June.

Nellie R. Mecham, "HISTORY OF JOHN ROWLEY"
"They went from New York by train and boat to Iowa City, and after a short delay, to Council Bluffs. Here preparations were made for one of the worst journeys history has ever recorded. The saints were light hearted and worked with zeal preparing for their trek across the plains. Once while they were gathered at their daily devotional, Brother Levi Savage spoke and portrayed to them the intense suffering they would endure if they started so late in the season to cross the plains, the thoughts of which made him cry like a child. But Captain Willeys sternly rebuked him for this speech [sic] and told them that if they would be faithful and do as he told them, the winter would be turned to summer. But the subsequent events proved that Elder Savage was right.

"A few of the saints stayed behind to come on in the spring and the others, with buoyant spirits, started to draw their handcarts from Council Bluffs to Salt Lake City, happy in the thought that they were going to Zion. The work of drawing a handcart made Sister Rowley sick the first day out, but in spite of the fact that she did not recover good health at all on the journey, she kept pace and pulled her handcart."

Ann Rowley says: "Many Saints were migrating to Zion, which had been established in what is now known as "Utah." So anxious were we all to join the Saints, that we were willing to accept any kind of transportation, to make the trip. Just at this time, the "Handcart Method" had been adopted and we were grateful for even this mode of transportation to travel. We expected the handcarts to be ready, but they were not. We were delayed in Iowa City. Handcarts had to be made, supplies gathered, oxen caught and broken to pull the heavy supply wagons, everything that even hinted of being a luxury, must be eliminated. There were many keepsakes that I wanted to take, but couldn’t. But there was one thing I didn’t consider a luxury and that was my feather-bed. I had hung onto that beloved item from the time of the auction in England and now clearly there was no room for it. It wouldn’t be bad to walk 1300 miles if one had a feather-bed to sleep on at night, but no matter how I folded it, it was too bulky. Wouldn’t it be just wonderful I thought, if I could deflate it in the morning and inflate it at night, so it would pack compactly. But a feather-bed is a feather-bed and when it came to choosing between Zion and a feather-

bed, well it was a little too late to turn my back on Zion, so I ripped it open and emptied the feathers on the ground and used the tick to cover the supplies on the handcart:

“We left Iowa City under the direction of Captain James C. Willie and Millen Atwood.  Captain Willie had been a leader on the ship while we were crossing the sea.  I remember Brother Savage commenting on the lateness of the start and predicting the cold hardship and suffering the company would have to endure before they reached the valley.  He cried like a child, but the captain rebuked his speech.

“We started out in great spirits, grateful at last that we were on the last lap of our journey.  When we started our weather was intensely hot and our feet were badly blistered.  The stock had to be herded at night and this was a laborious task for men who had drawn carts all day.”

Autobiography Ann Jewell Rowley

“Ann Rowley was 16, [15] but he had been doing a man's work day by day since leaving Iowa City. He pushed a handcart over 1,000 miles.” Rowley family history relates that at one crossing of the Sweetwater, John helped to carry children across the stream in the freezing water and helped women pull their handcarts across. By evening his wet clothes were frozen to his skin, and his mother had to warm him carefully to remove the frozen clothing.

“On another evening he stood sentry duty in the freezing weather until all the stragglers came into camp. Exhausted, he lay down in the snow, and his hair froze to the ground. He lay there waiting to die. One of the company captains came along and gave him a painful kick. When he groaned, they realized he was still alive and placed him on the sick wagon, preserving his life.”

Rowley Family History, p 61

Ann Rowley: "When we were well into the wilderness, we noticed a storm approaching from the southwest. The terrifying thing was not the storm, but a large herd of buffalo stampeding right past our camp. Afterward, I thanked the Lord, that our lives had been spared, for we all could have been killed. As it was, we lost 30 head of our best oxen. They were swept away by the buffalo. The men hunted for them but had to give it up.

“This was the beginning of our great hardships and probably was the cause of most of them, for we had spent valuable time looking for the oxen. This loss in turn, reduced our meat supply and because there wasn’t enough cattle to pull the supply wagons, a hundred pounds of flour was placed in each handcart.

“Our handcarts were not designed for such heavy loads and we were constantly breaking down. They had been made of green lumber and were affected by the weather. Rawhide strips was used to wrap the iron rims to the wheels and the wood would shrink and the rawhide would come loose. It hurt me to see my children go hungry. I watched as they cut the loose rawhide from the cart wheels, roast off the hair and chew the hide.

“There came a time, when there seemed to be no food at all. Some of the men left to hunt buffalo. Night was coming and there was no food for the evening meal. I asked God’s help as I always did. I got on my knees, remembering two hard sea biscuits that were still in my trunk. They had been left over from the sea voyage, they were not large, and were so hard, they couldn’t be broken. Surely, that was not enough to feed 8 people, but 5 loaves and 2 fishes were not enough to feed 5000 people either, but through a miracle, Jesus had done it. So, with God’s help, nothing is impossible. I found the biscuits and put them in a dutch oven and covered them with water and asked for God’s blessing, then I put the lid on the pan filled with food. I kneeled with my family and thanked God for his goodness. That night my family had sufficient food. The men returned with buffalo meat, and what wasn’t eaten right away by the Saints, was dried into jerky.

“My two youngest children, Thomas who was 10 and Jane who was 8, often played as they walked along with other members of the company. When the company stopped at night the children would hurry to our own camp for roll call. One day when they had been especially busy with their own games, the company got far ahead of them and I didn’t even know it. They hurried to catch up, but they were confronted with a large stream, too deep for them to cross and the wagons had gone on. Roll time came and the children were missed. All the wagons were searched and questions asked of the members of the group. I was frantic with grief and worry for the night was coming on and I knew the dangers of wild animals and prowling Indians. A searching party was dispatched and the children were found on the other side of the river, huddled under an overhanging rock, cave like formation. I blamed myself endlessly. My only consolation was that the Savior’s mother had experienced the same thing when Jesus was 12 years of age. From that time on Thomas and Jane willingly stayed by my side.
“The weather became cooler and at times the company was delayed because of the constant repair of the handcarts. We encountered many storms on the way and the way seemed long indeed.

“The last time we crossed the Platte River, Samuel’s clothes were soaked. By the time he got to camp it was sundown and his clothes were frozen so stiff he could barely move. I wrapped a blanket around him and he stood by the fire, while I dried his clothing.”

Autobiography Ann Jewell Rowley

1856 Oct 29 Chimney Rock Ann Rowley: “Samuel celebrated his 14th birthday somewhere in the vicinity of Chimney Rock. He celebrated by pulling the handcart with John all day.

“From here on, the country became hilly and hard to travel. The company dragged on. Provisions were getting lower and the people weaker day by day. Anything that had no immediate use, was discarded on the way.

“I watched with alarm, my stepdaughter Eliza, grow weaker each day. She was never very strong. I had always devoted a lot of love and care to her, but she passed away one day and was buried off to the side of the trail. Her long journey was at an end, but ours had a long way yet to go.

“John being the oldest boy, had borne the brunt of the hard work. I was grateful for my faith in God, for it was only through this faith, that I was able to carry on at all. I confess, it seemed at times, the Lord had deserted us. I watched John, so cold, drowsy and sick, want to lie down in his tracks, never to rise again. I had to stand helplessly while Captain Willie whipped him, to make him go on. Gladly, I would have taken the whipping myself.

“In traveling at night, in the frost of that altitude, Thomas’ right hand froze while he was pushing on the back of the cart and when we stopped at night and his hand got warm, it swelled up, as Samuel said, “like a toad.” John could finally go no farther and I felt my heart would break as I saw him laying beside the trail, waiting for the sick wagon. By the time he was picked up, his body was frozen in two places. That night, 12 people died and the next morning, 3 people joined them. I always thought, I shall be the happiest person, if I could reach Zion, with all my children alive.

“However, the Lord had not deserted us and I was ashamed for thinking for a moment, he had. Hope came to us, when the company of Apostle Franklin G. Richards overtook us and seeing our plight, hurried with as much speed as possible, to Salt Lake City, to get help for us. When the rescue party found us, we had been in camp 3 days and had been without food for 48 hours. There was 18 inches of snow on the ground. We were very grateful for the provisions they brought. It was good to see my family eat again. It was Cyrus W. Wheelcock of the Dan Jones party, that met us with the provisions and he could not hold back the tears, when he saw the condition of our company.

“With wagons to help us, we unloaded our carts. Samuel felt he could pull our handcart by himself and perhaps it would be useful when we got to the valley. He tried, but the trail was so rough and mud balled up on the wheels. I was very weary of the thing and was glad to see the family push it to one side and leave it. I think, none of us cared to see it again. We were to repair the handcarts. We encountered many storms on the way and the way seemed long indeed.

Autobiography Ann Jewell Rowley

1856 Nov 6 Salt Lake Valley, Utah Ann Jewell Rowley says she entered the Salt Lake Valley

“We entered the valley 6 Nov 1856 and were given food and shelter. That night, and during the next day 15 more Saints died. It is thought, that many ate unwisely after being so long without food. I thanked God, as did the other survivors, that the ordeal was over. The last few days I was especially eager to reach the valley, as I had suffered an accident, a piece of sagebrush had gotten into my eye. It was very painful. I was very glad to be where I could get it extra strong.

“I watched with alarm, my stepdaughter Eliza, grow weaker each day. She was never very strong. I had always devoted a lot of love and care to her, but she passed away one day and was buried off to the side of the trail. Her long journey was at an end, but ours had a long way yet to go.

"After arriving in Salt Lake, John’s mother was advised by the church authorities to take all her family except John and go to Nephi. John was to remain in Salt Lake where his limbs could be cared for. As soon as John recovered he joined his family in Nephi, where they established their first home in America. In 1859 John married Frances Banks and two children, John William and Frances Rosetta were born to this couple. Both children died in their tender years. John and Frances later separated."

Ann Rowley says: "In order not to burden the Salt Lake City Saints unduly, provisions were made for each ward to take a portion of the company. My daughter Elizabeth stayed in the city and worked for Daniel H. Wells. But I and the rest of my family were sent to Nephi, where the ward provided for us."

"The older boys soon found work away from home. I was grateful for the comparative comfort we enjoyed, but still owed our immigration fee and it was hard to accept charity."

Autobiography Ann Jewell Rowley

"66 members of the company had died on the way. In Salt Lake homes were opened to the weary travelers & every effort was made to comfort & care for them. Clothing & other needed things were given to them freely."

"History of Eliza Chapman Gadd," by granddaughter Mabel Gadd Kirk [The members of the Rowley family needed medical care after the handcarts arrived. They each went different ways. Some were boarded with Nephi families. Some were used as workers instead of being cared for. It was difficult. They had stayed together all thru the journey only to be split up. Ann could not care for them all.]

THE WILLIE & MARTIN HANDCART COMPANY

"I was in that company and my wife was in it... We suffered beyond anything you can imagine and many died of exposure and starvation, but did you ever hear a survivor of that company utter a word of criticism? ...(We) came through with the absolute knowledge that God lives for we became acquainted with him in our extremities."

"I have pulled my handcart when I was so weak and weary from illness and lack of food that I could hardly put one foot ahead of the other. I have looked ahead and seen a patch of sand or a hill slope and I have said, I can go only that far and there I must give up, for I cannot pull the load through it... I have gone on to that sand and when I reach it, the cart began pushing me. I have looked back many times to see who was pushing my cart, but my eyes saw no one. I knew then that the angels of God were there.

"Was I sorry that I chose to come by handcart? No. Neither then nor any minute of my life since. The price we paid to become acquainted with God was a privilege to pay, and I am thankful that I was privileged to come in the Martin Handcart Company." William Palmer, quoted in David O McKay, "Pioneer Women," Relief Society Magazine, Jan. 1948, 8 as quoted in "Our Heritage" LDS, 1996.

1857 Spring Parowan, I, Utah Ann Jewell Rowley, widow, Marries Andrew Baston & Moves to Parowan:

"But the Lord was mindful of me in a way I never expected. In the Spring of 1857, a man from Iron County, Andrew Bastion, came to Nephi. He asked the bishop if there was a woman in his ward that would make him a good wife. Bishop Bigler introduced him to me. It was as simple as that. He needed a wife and I needed a home for my younger children, so we were married within a few days. Andrew was a fine man. He paid my immigration fee and provided a good home for us. I was a good wife to him too, but not for long, for he lived less than a year after we were married. Again I was left a widow. I was grateful to the Lord for having sent Andrew to me. I know I was a comfort to him, that last year of his life. He left me well provided for. I later married a man by the name of Ford who took good care of me until his death. When Jane married, I would have been alone, but Thomas brought his bride to live with us. I must tell you, I learned to read and write, after I came to Utah."
